Evanthia 25

Enhances the face volume naturally and non-invasively.

Suggested treatments:

- Volumetric facial reshaping
- Lip enhancement
- Prejowl sulcus
- Deep nasolabial folds
- Temples
- Cheek augmentation
- Chin augmentation
- Rhinofiller
- Jawline contouring

We do not compromise when it comes to quality.
Every stage of the production process is carefully monitored
to ensure all parameters of the final product meet the conformity limits,
with some being way below the accepted limits.*

- Cross-linking agent residual:
  < 0,05 ppm
- Endotoxin content:
  ≤ 0,5 Eu/ml
- Residual protein concentration:
  0,1%

* Conformity parameters
set by FDA and EU Regulation 2017/745.

Certifications of our manufacturing partner:
UNI EN ISO 9001:2015 since 1995 with certificate No. 423
UNI CEI EN ISO 13485:2016 since 2008 with certificate No. 13790
ISO 22716:2007 since 2013 with certificate No. 18549

Evanthia Suggested Treatments

*Evanthia Technical Specifications**

* Please refer to the I.F.U. for full specifications.

** The estimated average duration depends on various factors: patient's skin type, depth of wrinkles, injection area and the injected quantity. It is recommended to have the first two sessions within 4-6 months to achieve optimal results.
